## Blanket Authorization for Use of Photographic Images

Throughout the school year, students will be involved in special projects and programs that may have potential interest to the community at large and therefore may be photographed. Photographs may be of individuals, or small or large groups. Photographs may be used on the Ruffing Web site, in the newsletter, yearbook, in promotional materials, released to the media, or used in other ways as deemed appropriate by the Head of School.

The policy of the School is NOT to include students' names when publishing such photographs.

We share your concern for the privacy and security of each of your family members. If you wish to withhold permission for the use of your child's image, you may do so in the appropriate space below. This authorization does not include photographs for the annual "Moving Up Ceremony," which are not subject to external distribution.
